

Ultragroove™

Life's Easy

Ultraflex's range of prefinished decorative panels and modular systems are designed to make life easy. Choose from a predefined range of systems and finishes or fully customise to deliver on your unique design concept.

Our Preassembled modules offer:

- Substantially reduced onsite labour costs
- Superior and consistent quality in a controlled environment
- Contribute to significantly faster and reliable construction programs
- Best value and flexibility for client
- Reduced environmental impact
- Limitless range of possible solutions

"Bad Design is smoke, while good design is a mirror"

Juan-Carlos Fernandez

Ultragroove

Application: Ceiling, Wall

Ultragroove™ decorative panels are manufactured using either an MDF or Plywood substrate. Ultragroove panels are designed as a concealed screw fix fixing system allowing for fast and easy installation onto a standard framing system for either a ceiling or wall. Ultragroove provides high acoustic values due to its double perforated system and high performing integrated acoustic backing. Ultragroove panels are available in either a perforated back or slotted back.

Benefits:

- Standard installation onto off the shelf framing systems
- Quick installation times
- Standard patterns and finishes with quick lead times
- Coordinated services integration for a/c outlets, light fittings, etc
- Maximise panel lengths to reduce join lines across large open areas
- Factory applied acoustic backing

Substrate:

- MDF Standard, MDF Moisture Resistant, MDF Fire Rated, MDF Black Core, MDF Grey Core
- Birch Plywood, Hoop Pine Plywood

Finishes:

- Natural Timber Veneers
- Laminates - Timberlook or Solid
- Polyurethane - Solid or Metallic

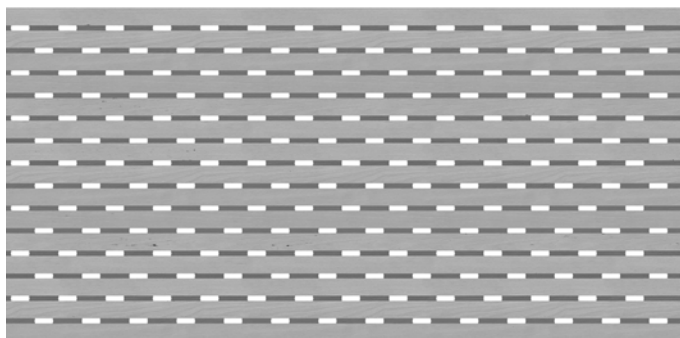

Acoustics:

Factory applied black integrated acoustic textile using high performing Megasorber G8A
